## **Double Patenting**

1. Claims 29-32 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 8 and 11 of U.S. Patent No. 6,333,006 B1. Although the conflicting claims are not identical, they are not patentably distinct from each other.

Specifically, the subject matter of instant claims 29-32 is encompassed by the broader claim 8 of the patent. Each and every step of the application claims is recited or implied by the patented claim. Furthermore, it is noted that the patent uses the terminology "aerosol container" while the application uses "sealed container." However, it would have been obvious that an aerosol container is merely one type of sealed container. It is moreover considered to be obvious to one of ordinary skill in the art to employ heat as a means of sealing the enclosures of the patent and to sterilize a plurality of enclosures/cartons at a time for good economy.

2. Claim 33 is rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claim 6 of U.S. Patent No. 6,123,900 A. Although the conflicting claims are not identical, they are not patentably distinct from each other.

The steps set forth by the patented claim encompass the method of claim 33.

## Allowable Subject Matter

3. Claims 34 and 35 are allowed.

Application/Control Number: 09/994,671

Art Unit: 1744

## Conclusion

4. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Sawyer (U.S. Patent No. 4,056,816) teaches radiation sterilizing a double-layer packaged prosthetic device.

6. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Leigh McKane whose telephone number is 703-305-3387. The examiner can normally be reached on Monday-Wednesday (7:15 am-4:45 pm).

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert J. Warden can be reached on 703-308-2920. The fax phone numbers for the
